

Calculation and Selection - Circulation Pump

Initial data

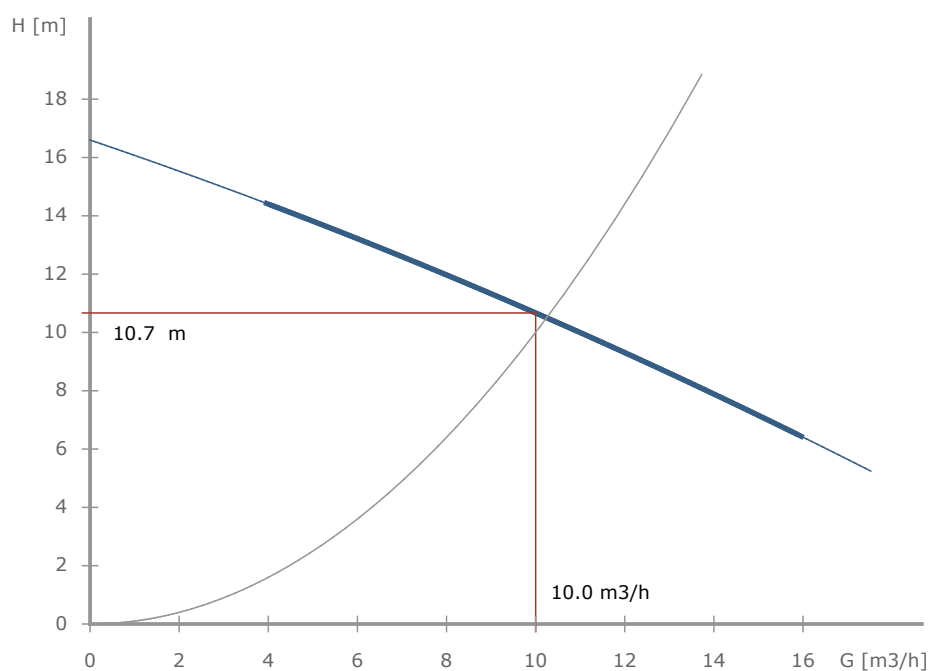

10.0 m³/h Water flow rate
10.0 m Head

Calculation results

Wilo : Stratos MAXO 32/0.5-16 FL

Germany

10.0 m³/h Water flow rate
10.7 m Head
0.51 kW Electric power of the pump
230 V Supply voltage
dT (-10...110°C) Operating temperature
PN 10 bar Nominal pressure
FL 32 DNin/DNout Nominal pipe size
650-4950 rpm Rotation speed of the impeller

Body : in-line : cast iron : thread / flanged

Recommended for systems : HVAC - Heating, Ventilation, and Air Conditioning

Suitable for drinking water : not allowed

Energy efficiency index : EEI 0.19

IP protection class : IP X4D
